OVERVIEW

OVERVIEW

- The impact of COVID-19 has resulted in the suspension of all football activities since 24 March 2020. In this time, the priority of the Football Association of Singapore (FAS) has been to safeguard the health and wellbeing of the community and to undertake its social responsibility to do everything it can to prevent the spread of COVID-19.
- COVID-19 is mostly likely spread through direct close contact with a person while they are infectious (usually face to face contact for at least 15 minutes; or being in the same closed space for at least 2 hours). Given that football is generally played outdoors, the risk of infection through playing football may be lower. However, as Singapore transits into Phase 2, the FAS will cautiously, in consultation with the authorities, aim to bring back footballing activities at ALL LEVELS over time and in compliance with all recommended advisories and measures.
- These guidelines set are in line with the Multi-Ministry Taskforce (MTF) requirements and key areas recommended by SportSG as per their published advisory on 17 June 2020.

OVERVIEW

- In resuming footballing activities, the objective of the FAS remains the safety of all participants and to ensure the risk of communal infections are minimised.
- In this regard, the FAS will work with our stakeholders and authorities to ensure the measures adopted satisfy all requirements of the authorities and meet the FAS's objectives.
- These guidelines shall be adopted by all participants, venue operators, clubs and academies who conduct footballing activities, without compromise.

GENERAL HYGIENE

“Public and Personal hygiene is Singapore’s first defense...”

Masagos Zulkifli

Minister of Environment & Water Resources
